## **1.0 METHODOLOGY**

In order to comply with the requirements of British Standard 7958 ‘Closed Circuit Television (CCTV) Management and Operation – Code of Practice’ and the recommendations contained in the Information Commissioner’s ‘CCTV Code of Practice’ published in October 2014 and Biometrics and Surveillance Commissioner’s ‘Surveillance Camera Code of Practice’ published in 2021, Stratford-on-Avon District Council commissioned Plass Solutions Ltd to conduct an evaluation of the Stratford-on-Avon CCTV system.

Whilst the Information Commissioner’s ‘CCTV Code of Practice’ and the Biometrics and Surveillance Commissioner’s ‘Surveillance Camera Code of Practice’ mention that a review should be undertaken that assesses the effectiveness of the system. British Standards are specific in the criteria required to be covered by such an evaluation. However, the aforementioned Codes of Practice agree that the results of the evaluation should be publicly available.

The topics required to be covered by the British Standard are as follows:

- a) a description of the scheme and the geographical area(s) of operation the schemes policy statement
- b) the purpose and scope of the scheme
- c) any changes to the operation or management of the CCTV scheme
- d) any changes that have been made to the policy
- e) any proposals to expand or reduce the operation of the scheme
- f) the aims and objectives for the next 12 months.

The British Standard also requires the following information to be included within the review:

- g) the number of incidents recorded by the scheme
- h) the number of incidents reported to the police and where appropriate other bodies
- i) an assessment of the CCTV scheme’s impact on crime levels and types of crime in the area covered by the scheme.

As the Stratford-on-Avon CCTV Control Room has achieved accreditation to the above-mentioned British Standard, the following evaluation will focus on the content of that Standard as outlined above.

**Stratford-on-Avon CCTV Evaluation Report**

## **2.0 INTRODUCTION**

### **2.1 Description of the scheme**

The Stratford-on-Avon District Council CCTV system consists of 123 cameras that have been installed at strategically positioned locations in Stratford-on-Avon, Shipston-on-Stour, Alcester, Southam, Bidford-on-Avon, Wellesbourne, Studley, Henley-in-Arden and Town Square and 6 redeployable cameras. There are six car parks also covered by the surveillance system, these being at, Windsor Street, Arden Street and Bridgefoot Car Park Road, Swans Nest Road, Recreation Field and Riverside.

The system is monitored by trained and dedicated staff.

### **2.2 Communication**

There is a dedicated CCTV transmission link to a Police control room, which is capable of receiving and monitoring live images. Other communication links exist and these include:

- Retailers
- CEO's
- Town Hosts
- Street Pastors
- Street Marshalls

### **2.3 System Operation**

The system is monitored by dedicated staff who have received the accredited training now required by the Private Security Industry Act 2001. The system is operated and managed in accordance with current legislation and detailed CCTV Codes of Practice and Operational Procedures Manual.

**Stratford-on-Avon CCTV Evaluation Report**

---

### **3.0 POLICY STATEMENT AND SCHEME DESCRIPTION**

#### **3.1 Closed Circuit Television**

The scheme initially comprises of cameras located in specific external locations with control, monitoring and recording facilities at a dedicated location. A problem orientated process was utilised to assess the appropriateness of CCTV in the area subject of this evaluation. The cameras have therefore been sited to capture images that are relevant to the purposes for which the scheme has been established. The purposes of the CCTV scheme are outlined later in this report.

#### **3.2 Ownership**

The scheme is owned by Stratford-on-Avon District Council who is responsible for the management, administration and security of the system. The owners manage the system and ensure the protection of individuals and the public by complying with the Codes of Practice.

Should the public wish to make contact with the owners of the scheme they may write to:

The CCTV Manager  
Stratford-on-Avon District Council  
Elizabeth House  
Church Street  
Stratford on Avon  
CV37 6HX

The above contact point will be available to members of the public during office hours. Enquirers will be provided with the relevant documentation on request.

#### **3.3 Policy Statement**

To promote public confidence by developing a safe and secure environment for the benefit of those employed, visiting or using the area.

To inspire public confidence by ensuring that all public area Closed Circuit Television (CCTV) systems which are linked to the Stratford-on-Avon District Council CCTV control room are operated in a manner that will secure their consistent effectiveness and preserve the civil liberty of law-abiding citizens at all times.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

#### **4.0 THE PURPOSE AND SCOPE OF THE SCHEME**

##### **4.1 Purposes of the scheme**

The following are the objectives for which the Stratford-on-Avon District Council CCTV system was established:

The following objectives have been established for the Stratford-on-Avon District Council CCTV and associated systems:

- a) reducing the fear of crime
- b) deterring and preventing crime
- c) assisting in the maintenance of public order and reducing offences involving vandalism and nuisance
- d) providing high quality evidence which may assist in the detection of crime and the apprehension and prosecution of offenders
- e) protecting property
- f) providing assistance with civil claims
- g) providing assistance with issues relating to public safety and health
- h) providing assistance and reassurance to the public in emergency situations

##### **4.2 Scope of the scheme**

The cameras have been sited to capture images that are relevant to the purpose for which the scheme has been established.

The scheme will be operated fairly, within the applicable law and only for the purposes for which it is established or which are subsequently agreed in accordance with the Code of Practice.

Operators are aware of the purpose for which the scheme has been established and that the CCTV equipment is only used to achieve the identified purposes.

The scheme will be operated with due regard for the privacy of the individual.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

Before cameras are placed in residential areas the residents in that area will be consulted concerning the proposed system. The results of the consultation will be taken into account.

The public interest in the operation of the scheme will be recognised by ensuring the security and integrity of operational procedures.

The system will only be operated by trained and authorised personnel.

An evaluation of the scheme will be made annually and this will be available to the public at specified locations.

Stratford-on-Avon District Council and partners support the individual's right to privacy and will insist that all agencies involved in the provision and use of Public CCTV systems connected to the Council's CCTV Control Room accept this fundamental principle as being paramount.

The scheme aims to provide surveillance of the public areas in order to fulfill the purposes of the scheme. The area protected by CCTV is indicated by the presence of signs. The signs are placed so that the public are aware that they are entering a zone which is covered by surveillance equipment. The signs state the organisation responsible for the scheme, the purposes of the scheme and a contact telephone number. Data will not be held for longer than necessary and disposal of information will be regulated.

The scheme is registered with the Information Commissioner. The registration number is Z6970487. The scheme will be managed in accordance with the principles of the Data Protection Act 2018, Human Rights Act 1998 and all other relevant legislation including the Surveillance Camera Code of Practice.

Reviews of Data Protection and Legal requirements are taken annually.

#### **4.3 Personnel**

All personnel involved with the monitoring of CCTV have or are in the process of being security screened in accordance with British Standard 7858.

#### **4.4 Training**

All employees engaged in the monitoring and operation of CCTV have received training to the standards required by the Private Security Industry Act 2001. As a further requirement of the above Act all operators will be licensed by the Security Industry Authority.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

#### **4.5 Operation of the scheme**

The system is operated in accordance with a recognised Code of Practice and Procedural manual. The scheme is registered with the Information Commissioner, details of which can be obtained from the Information Commissioners web site. The scheme operates within the requirements of the Data Protection Act 2018, Human Rights Act 1998 and relevant legislation.

#### **4.6 Audit**

As mentioned in the introduction, the scheme is required to be independently monitored this includes a review of the scheme's operation and working practices.

An audit has been undertaken on 5<sup>th</sup> April 2024, prior to this evaluation report which considered the following;

a) the level of attainment of objectives and procedures.

The level of attainment of objectives is covered in the main evaluation. The statistics relate to the 2023/2024 period. Procedures are governed by the Code of Practice and Procedural Manual. These were reviewed and comply with relevant processes and legislation in particular the Data Protection Act 2018 and Human Rights Act 1998.

b) random audits of the data log and the release of information

All administrative documentation, which incorporate the release of information and incident reports in connection with this scheme were examined and all appear to be completed in accordance with the Procedural Manual.

c) the review policy

The review policy is outlined within the Code of Practice. Procedures are reviewed on an ongoing basis in order to comply with procedures and legislation.

d) standard of costs for the release or viewing of material

The Information Commissioner states that requests are free of charge to the Data Subject. However, Stratford-upon-Avon District Council may charge reasonable fees when responding to manifestly unfounded or excessive requests. There have been no Subject Access Requests during 2023/2024.

**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

e) legislation

At the time of the above audit all legislative requirements appear compliant.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**

---

**5.0 CHANGES IN OPERATION, MANAGEMENT OR POLICY**

As reflected in the Code of Practice, any major changes to the Code of Practice take place only after consultation with the relevant management group and upon agreement of the organisations with a participatory role in the operation of the system.

**5.1** Major changes to the code are defined as changes which affect its fundamental principles and shall be deemed to include:

- additions and omissions of cameras to the matters which have privacy
- implications
- additions to permitted uses criteria e.g. purposes of the scheme
- changes in the right of access to personal data, except statutory requirements
- significant legal implications.

**5.2** Minor changes to this Code of Practice are defined as operational and procedural matters which do not affect the fundamental principles and purposes; these include:

- additions and omissions of contractors
- additional clarifications, explanations and corrections to the existing code
- additions to the code of practice in order to conform to the requirements of
- any statutory Acts and changes in criminal legislation

A minor change may be agreed between the manager and the owner of the system.

The Code of Practice is subject to annual review. A copy of the Code of Practice can be obtained by writing to:

The CCTV Manager  
Stratford-on-Avon District Council  
Elizabeth House  
Church Street  
Stratford on Avon  
CV37 6HX

---

**6.0 PROPOSALS FOR THE SCHEMES INCLUDING AIMS AND OBJECTIVES**

The Stratford-on-Avon District Council CCTV control room utilises the latest technology in Closed Circuit Television. This is seen as being beneficial to all those who visit, reside and work in the area and in particular to those with special needs.

The aims and objectives remain the same and these are the prevention and detection of crime, to reduce the fear of crime and make the area safe environment.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

## **7.0 STATISTICAL ANALYSIS AND EVALUATION**

In order to achieve meaningful evaluation, the CCTV scheme must be assessed against specific performance indicators which are relevant to the objectives of the scheme. This can be achieved by utilising baskets of indicators which are divided into the categories of Contextual, Key and Support Indicators.

### **7.1 Contextual Indicators**

Contextual Indicators relate to the circumstances or background surrounding the particular initiative. In this case the purposes of the CCTV are mainly to prevent and detect crime. Indicators will include both British Crime Statistics and Police Recorded statistics for this type of crime.

### **7.2 Key Indicators**

Key Indicators are closely related to the actual objectives of the particular initiative and attempt to measure its effect. This will include the total crime for the police area. Also included in this category will be the number of incidents reported by the Stratford-on - Avon District Council CCTV Control Room to police and other agencies.

### **7.3 Support Indicators**

Support Indicators are used to refute or verify the key indicators. The measurements will include the number of media seized by police which contain evidential value.

## **7.4 EVALUATION**

### **7.4.1 Contextual Indicators**

The responsibility for the publication of crime statistics transferred from the Home Office to Office of National Statistics (ONS) in April 2012, with the year starting on 1<sup>st</sup> July and finishing on 30<sup>th</sup> June. The following information has been taken from the ONS website.

The latest figures from the Crime Survey for England and Wales (CSEW) showed that there were an estimated 8.5 million offences in the year ending September 2023. While the latest figures do not show a statistically significant change in total crime compared with the year ending September 2022, they do follow a long-term downward trend and more recent falls since the beginning of the coronavirus (COVID-19) pandemic, with total crime 17% lower than the year ending March 2020. Compared with the year ending September 2022, there was some variation for individual crime types:

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

- Fraud decreased by 13%, with notable reductions in advance fee fraud (33%) and other fraud (40%).
- Computer misuse increased by 30%, mainly because of a 36% rise in unauthorised access to personal information.
- Criminal damage decreased by 21%, including a 30% fall in criminal damage to a vehicle.

The CSEW remains the best estimate of long-term trends in crimes against the household population for the crimes included in the survey. However, estimates for the year ending September 2022 and September 2023 should be interpreted with caution. The CSEW estimates presented for the year ending September 2022 are based on lower than usual interview numbers following the gradual return to face-to-face interviewing from October 2021 (20,980 respondents). Both years are subject to lower response rates, which may affect the quality of the estimates. For more information, see the Office for Statistics Regulation's Temporary suspension of National Statistics status for estimates from the Crime Survey for England and Wales note.

Although police recorded crime does not tend to be a good indicator of general trends in crime, it can give more insight into lower-volume, but higher-harm offences reported to the police, including those that the survey does not cover or capture well. Data for the year ending September 2023 showed:

- The number of homicides decreased by 9% to 591 offences compared with the year ending September 2022 (651 offences).
- Police recorded robbery offences increased by 12% to 79,091 offences compared with the year ending September 2022 (70,792 offences), but they remained 12% lower than the year ending March 2020 (90,187 offences).
- Offences involving knives or sharp instruments (excluding Greater Manchester Police and Devon and Cornwall Police) increased by 5% (to 48,716 offences) compared with the year ending September 2022 (46,367 offences), but remain 5% lower compared with the year ending March 2020 (51,228 offences).
- Offences involving firearms (excluding Devon and Cornwall Police) increased by 3% (to 6,233 offences) compared with the year ending September 2022 (6,024 offences).

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

- Theft offences increased by 9% to 1.8 million offences compared with the previous year, this was largely a result of a 32% increase in shoplifting offences.
- There was a slight increase (2%) in vehicle offences compared with the previous year, which included an 8% increase in theft or unauthorised taking of a motor vehicle compared with year ending September 2022 and a 17% increase compared with the pre-coronavirus (COVID-19) pandemic year ending March 2020.

According to Crime Survey for England and Wales (CSEW) estimates for the year ending September 2023, people aged 16 years and over experienced 8.5 million offences, no significant change compared with the year ending September 2022 (9.1 million offences). However, this follows a long-term downward trend and more recent falls since the beginning of the coronavirus (COVID-19) pandemic, with total crime 17% lower than the year ending March 2020 (10.2 million offences).

The latest CSEW figures are based on interviews conducted between October 2022 and September 2023, measuring experiences of crime in the 12 months before the interview. This means these crimes could have occurred any time between October 2021 and August 2023. Similarly, the year ending September 2022 will include crimes committed during the coronavirus (COVID-19) pandemic and as early as October 2020. Crime Survey estimates are not currently designated as National Statistics. Please use these data with caution because of the potential impact of lower response rates on data quality. Since the mid-1990s, there have been long-term falls in overall CSEW crime estimates. However, long-term trends vary by crime type.

For crimes that come to the attention of the police, police recorded crime has wider coverage than the CSEW as it includes offences against all people (including those aged under 16 years old and the non-household population), and businesses, as well as victimless crimes, such as drug taking.

Improvements to recording processes and practices by the police, expansions of the recorded crime collection to include new offences, variations in police activity, more victims reporting crime, and genuine increases in some types of crime, have each made substantial contributions to rises in recorded crime over recent years. This effect has been more pronounced for some crime types. For some types of offence these figures do not provide reliable trends in crime.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

Police recorded crime in England and Wales in the year ending September 2023 was relatively stable with a 1% increase on the previous year. Overall, 6.7 million crimes were recorded in the year ending September 2023 compared with 6.6 million in the year ending September 2022. Notable increases were observed in shoplifting and fraud offences against businesses and other organisations (which are not included in the CSEW). Information on the investigative outcomes of crimes recorded by the police can be found in the Home Office's Crime outcomes in England and Wales publication.

#### **7.4.2 Key Indicators**

During 2023/24 the recorded crime in Warwickshire has decreased by 8.2%.

<b>Crime</b>	<b>Number of Incidents</b>	<b>Annual % Change</b>
Anti-Social Behaviour	7,746	-16.7%
Bike Theft	515	15.5%
Burglary	2,301	-2.4%
Criminal Damage	3,461	-15.3%
Drugs	1,098	9.3%
Possession of weapons	701	12.0%
Public Order	3,263	-12.4%
Other Crime	1,092	3.6%
Other Theft	3,389	-14.6%
Robbery	390	3.2%
Shoplifting	3,001	20.2%
Theft from a Person	273	1.1%
Vehicle	4,122	-14.6%
Violence	17,050	-6.1%
<b>TOTAL</b>	<b>48,402</b>	<b>-8.2%</b>

The Police crime map uses data from local forces. The hotspots give only a loose idea of where crimes happened. Actual locations and details of crimes are kept anonymous.

#### **7.4.3 Stratford-on- Avon District Crime Statistics**

The following tables depict the number of offences for 2019/2020 to 2023/2024. The availability of crime statistics covering Stratford on Avon is through the Police website, however, it should be noted, that due to Covid-19 the Police changed how they record data on their website and it is not possible to explore the exact locations of the cameras. The figures below are a cluster of the area.

During 2019/2020, there was an increase in crimes and offences to 2,131. The most prominent category of offence was for anti-social behaviour, which included rowdiness or nuisances.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner’s**  
**‘Surveillance Camera Code of Practice’**

---

During 2020/2021, there was a decrease in crimes and offences to 1161. The most prominent category of offence was for anti-social behaviour, which included rowdiness or nuisances.

During 2021/2022, there was an increase in crimes and offences to 1675. The most prominent category of offence was for violence and sexual offences.

During 2022/2023, there was an increase in crimes and offences to 1697. The most prominent category of offence was for anti-social behaviour.

In 2023/2025, there was a decrease in crimes and offences to 1530. The most prominent category of offence was for Violence and Sexual Offences.

#### **7.4.4 Incident Reports by CCTV Operators**

During 2019/2020, there were 3,386 incidents recorded by the CCTV operators, this equated to a fall of 20.3%. During 2020/2021, there were 5,115 incidents recorded by the CCTV operators, this equated to an increase of 51.1%. During 2021/2022, there were 3,200 incidents recorded by the CCTV operators, this equated to a decrease of 37.4%. During 2022/2023, there were 3,931 incidents recorded by the CCTV operators, this equated to an increase of 22.8%. In 2023/2024, there were 7,088 incidents recorded by the CCTV operators, this equates to an increase of 80.3%. A table showing the categories of incidents can be found in Appendix ‘A’ of this report.

The operators also carry out regular patrols. The following table records the routine patrols completed:

<b>2020/2021</b>	14,854
<b>2021/2022</b>	13,142
<b>2022/2023</b>	46,758
<b>2023/2024</b>	8,084

#### **7.4.5 Viewing and Seizure of evidence**

The viewing and subsequent copying/seizure of recorded images can act as an indicator to support or refute the effectiveness of the scheme in obtaining meaningful evidence. However, it is difficult, if not impossible to ascertain from police records whether the images viewed have been used as evidence to obtain a conviction at court, assisted in any other clearance process or been used for intelligence purposes. Whilst officers complete a log when they receive copy DVDs/USBs, the audit trail is difficult to trace from this point and this is the case with most CCTV schemes.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner’s**  
**‘Surveillance Camera Code of Practice’**

---

The following table records how many DVDs or portable storage device (USB) have been reviewed by the Police and seized as evidence:

<b>Year</b>	<b>Requested Viewings</b>	<b>DVDs/USBs</b>
2020/2021	1248	186
2021/2022	41	283
2022/2023	184	170
2023/2024	288	210

There have been no RIPA requests in the period of April 2023 to March 2024.

The following table records how many DVDs/portable storage devices (USB) or still images have been issues as evidence to third parties:

<b>Year</b>	<b>Insurance Requests</b>	<b>DVDs issued</b>	<b>Other (inc Council) Requests</b>	<b>DVDs issued</b>
2021/2022	15	7	0	0
2022/2023	74*	3	6	4
2023/2024	21	4	27	20

Note \*: Stratford upon Avon District Council has received 74 requests from insurance companies, however 55 of these relate to Stratford in London; these have therefore been passed to Lewisham Council to process.

Requests have been received for footage captured by the redeployable cameras:

<b>Year</b>	<b>Evidence issued</b>
2022/2023	3
2023/2024	6

#### **7.4.6 Camera Usage**

All systems must comply with the Information Commissioners CCTV Code of Practice, which are based on the requirements of the Data Protection Act 2018 and Human Rights Act 1998. The following extracts are amongst the requirements:

“You should review regularly whether the use of CCTV continues to be justified. You will have to renew your notification yearly, so this would be an appropriate time to consider the ongoing use of CCTV”.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

The document further asserts:

“...there should be a periodic review (at least annually) of the system's effectiveness to ensure that it is still doing what it was intended to do. If it does not achieve its purpose, it should be stopped or modified.”

In order to comply with the last requirement, it is necessary to focus on individual camera usage and the following section provides some information which may assist.

During the monitoring of an incident, it is normal practice to use a number of cameras and therefore the following analysis will have no resemblance to the actual number of incidents, shown in the previous table. However, it will provide an indication of the usefulness of each camera to the overall system when dealing with incidents. It may reflect, for instance, that the camera forms part of a group of cameras used for tracking purposes.

There is a total of 123 cameras and 6 redeployable cameras installed in the Stratford-on - Avon District Council CCTV Control Room. All cameras are monitored by the CCTV Control Room.

The 123 cameras and 6 redeployable cameras have been used 82,228 times during the period under review, this equates to an average of 637 uses for each camera. Taking the above averages for each camera system and using a similar principle to that previously adopted with other Local Authorities, all cameras registering lower than 319 uses, this being half the average for each location, will fall into the category of being 'at risk'. During 2023/2024 there are 16 cameras and 6 redeployable cameras which fell below the above criteria; however 5 out of the 16 were only installed in September/October 2023. It should also be noted that the Synectics system cannot detect the cameras at Bell Court, therefore the usage of cameras for this location cannot be verified. Further investigations into the performance of cameras and continued availability will need to be assessed especially if those cameras have been faulty for extended periods.

This analysis does not mean that the 'at risk cameras' should automatically be de-commissioned, as further investigation should be made. A formal process is required in order to ensure that all avenues, such as consultation, cost implications etcetera are undertaken prior to any decisions, as this will avoid problems that have previously been experienced by other Local Authorities. A list of all cameras and usages can be found in Appendix 'B' of this report.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

#### **7.4.7 Complaints**

A member of the public wishing to make a complaint about the system may do so through Stratford-on-Avon Council's complaint procedure. A copy of the complaint procedure is available by writing to:

The CCTV Manager  
Stratford-on-Avon District Council  
Elizabeth House  
Church Street  
Stratford- on- Avon  
CV378 6HX

A complaints procedure has been documented. A record of the number of complaints or enquiries received will be maintained together with an outline of the action taken.

During the period of evaluation there have been no complaints received.

#### **7.4.8 Compliments**

A member of the public or organisation wishing to make a compliment about the system may do so by writing to:

The CCTV Manager  
Stratford-on-Avon District Council  
Elizabeth House  
Church Street  
Stratford-on- Avon  
CV378 6HX

A record of the number of compliments received is maintained. During the period of evaluation there have been 13 received. Trend identified is the help and support given by the control room staff.

#### **7.4.9 Subject Access requests**

During 2023/2024 there have been no Subject Access Requests received.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

## **8.0 CONCLUSION AND RECOMMENDATIONS**

### **8.1 Retrieval of Statistics**

The retrieval of crime and offence statistics has proved difficult as resources have been reduced. The statistics have therefore been obtained from the Home Office and Police websites. The analytical process on the Home Office crime mapping website has altered and therefore comparisons of crime statistics have not been possible. Similarly, the Police has changed the way crime data can be extracted from its website due to the pandemic.

### **8.2 The CCTV Scheme**

Whilst it is inadvisable to rely solely on Police statistics to evaluate the effectiveness of CCTV as they are notoriously unreliable due to the complexity of the reporting procedures, it is all that is required to comply with accreditation with the British Standard. More in-depth research would need to be undertaken for a reliable conclusion to be made.

The availability of crime statistics for the policing area covering Stratford-on-Avon District is available through the online website for the Police mapping facility. During 2019/2020, there was an increase in crimes and offences to 2,131. The most prominent category of offence remained anti-social behaviour. During 2020/2021, there was a decrease in crimes and offences to 1,161. During 2021/2022, there was an increase in crimes and offences to 1,675. The most prominent category of offence was violence and sexual. During 2022/2023, there was an increase in crimes and offences to 1,697. The most prominent category of offence was anti-social behaviour. In 2023/2024, there was a decrease in crimes and offences to 1,530. The most prominent category of offence was for Violence and Sexual Offences.

However, as mentioned previously, the data collected from the Police website covers incidents in the general area of the cameras rather than the specific location. Without a more detailed analysis it is difficult to establish if the CCTV has had positive effect and it will be necessary to monitor and evaluate the system over the next 12 months.

During 2019/2020, there were 3,386 incidents recorded by the CCTV operators, this equated to a fall of 20.3%. During 2020/2021, there were 5,115 incidents recorded by the CCTV operators, this equated to an increase of 51.1%. During 2021/2022, there were 3,200 incidents recorded by the CCTV operators, this equated to a decrease of 37.4%. During 2022/2023, there were 3,931 incidents recorded by the CCTV operators, this equated to an increase of 22.8%. In 2023/2024, there were 7,088 incidents recorded by the CCTV operators, this equates to an increase of 80.3%. A table showing the categories of incidents can be found in Appendix 'A' of this report.

**Stratford-on-Avon CCTV Evaluation Report**  
**1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024**  
**British Standard 7958 and Biometrics and Surveillance Camera Commissioner's**  
**'Surveillance Camera Code of Practice'**

---

In 2023/2024 there have been 288 viewings by the Police with 210 evidence packs issued to the Police.

Included in this report are the following locations which benefit from CCTV systems:

- Alcester
- Bidford-on- Avon
- Earlswood
- Henley-in-Arden
- Shipston-on- Avon
- Southam
- Stratford- upon- Avon
- Studley
- Wellesbourne

The analysis for these locations can be found in the body of the report.

### **8.3 Camera Uses**

It is necessary to be able to justify the existence of each camera which forms part of the CCTV scheme and the only measurement, is when it has been used during an incident. It should be explained that when monitoring of an incident, it is normal practice to use a number of cameras and therefore the analysis will have no resemblance to the actual number of incidents. However, it will provide an indication of the usefulness of each camera to the overall system when dealing with incidents.

There is a total of 123 cameras installed in the Stratford-on- Avon District Council CCTV Control Room and 6 redeployable cameras. All cameras are monitored by the CCTV Control Room. The cameras have been used 82,228 times during the period under review, this equates to an average of 637 uses for each camera. Taking the above averages for each camera system and using a similar principle to that previously adopted with other Local Authorities, all cameras registering lower than 319 use, this being half the average for each location, will fall into the category of being 'at risk'. During 2023/2024 there are 16 cameras and 6 redeployable cameras which fell below the above criteria; however 5 out of the 16 were only installed in September/October 2023. It should also be noted that the Synectics system cannot detect the cameras at Bell Court, therefore the usage of cameras for this location cannot be verified. Further investigations into the performance of cameras and continued availability will need to be assessed especially if those cameras have been faulty for extended periods.

**'Surveillance Camera Code of Practice'**

---

#### **8.4 Assessment**

The purposes and scope of the scheme are detailed in Section four of this report and these include the prevention and detection of offences. Whilst it is not possible to make an assumption that the CCTV system is actually preventing offences it is a component part of the preventative package.

To remove or modify the use of the CCTV system may also detract from a further identified purpose, this being to reduce the fear of crime. It is therefore recommended that at present the system is effective in achieving its purpose, however, there appears to be no current research available which indicates the perceptions of the public, residents and those working in the area covered by the cameras.

It is recommended that future evaluations should include a more in-depth analysis of each camera location with a view to justifying their existence and ascertaining if each camera remains appropriate.

#### **8.5 Future Evaluations**

It is recommended that the Stratford-on-Avon District Council CCTV scheme be evaluated on an annual basis. This will ensure continued compliance with the British Standard, which is assessed each year, it will also provide compliance with legislation and the Surveillance Camera Codes.
